When Israel's Prime Minister David Ben Gurion announced the dramatic capture of Adolph Eichmann a correspondent for an American news agency in Jerusalem phoned his New York office:

"Who," he asked, "is Adolph Eichmann?"

The same reaction was expressed by millions of people throughout the world, people to whom the names, Hitler, Himmler and Goering were all too familiar, but who had never heard of Eichmann.

Today the entire world knows the Eichmann story, complete with the most minute details. His four-month trial in Jerusalem was an historic event because it enabled the world to discover the full details of how one people were exterminated by another in what was generally considered the most civilized of all ages.

This album is a permanent account of that trial, a recital of horrors beyond belief. It is a spotlight on the heroism of a people who suffered beyond the experience of any other people in the history of mankind, and it is an opportunity for all mankind to learn, through the ghastly history of slaughter and wanton killing, of gas chambers, mass shootings and cruelties without end, and hopefully, to benefit from a lesson written in blood and ashes.

On December 11, 1961, Adolph Eichmann was adjudged Guilty by the Israel Tribunal.

It is to the 6,000,000 Silent Accusers, men, women and children who died under the Eichmann torture program, that this album is dedicated.

HIGH FIDELITY
6 MILLION ACCUSE

Nowhere in history, biblical or chronological, can there be found a story of man's inhumanity to man compared to that so viciously written by the Nazis against so-called non-Aryans. And no chapter in this story is more vivid, more blood-stained, than the one devoted to Adolph Eichmann, who for 16 years lived anonymously in a foreign country before being brought to the bar of justice to answer for his actions.

The pitiful few who were still alive to voice their eyewitness accounts of the Eichmann-operated concentration camps and extermination centers were as drops of rain in the raging storm; a whisper against the roar of the 6,000,000 Silent Accusers who died in the worst ravage of human life known to mankind, yet who were so vital a part of the four-month Eichmann trial in Jerusalem.

As you listen to the Trial you will discover the truths of almost two decades past still alive, frightening and almost beyond the realm of belief. Too, you will discover the depths to which a portion of our 20th Century civilization plunged when the teachings of religion were forgotten, when a democracy was strangled.

In this album you will hear History being written, in voices rung dry of emotion, relating one damaging fact after another, honestly, accurately and without fear of reprisal. The English narration by Yehuda Lev at no time intrudes, rather it serves as a factual interpretation of the accounts given by the witnesses.

The Eichmann Trial will serve the entire World for generations to come as a conscience, crying out for all to hear and heed; an eternal reminder to mankind that it must cherish freedom and respect the rights of each other in the home, the Church, and, indeed, all Society.

On December 11, 1961, Justice was served. Adolph Eichmann was pronounced Guilty by the Tribunal—6,000,000 Silent Accusers had been heard.
