CANTOR DAVID WERDYGER SINGS

MELODIES OF CAMP KOL-REE-NAH

accompanied by orchestra and the CAMP CHOIR

Musical Director YAakov Goldstein
CANTOR WERDYG — The Cantor

Cantor David Werdigy is the rare combination of musical talent and a liturgical composer who has achieved the rank and recognition of a "hidden talent," a composer who has created beautiful cantorial recordings as well as cantorial arrangements to enhance and beautify traditional synagogue music. Born in Cracow, Poland, he was an ordained rabbinical student and cantor. It was Cantor Werdigy who was chosen to lead the High Holiday Services for the thousands of American Jews who were stationed near Liman, Austria, making it a moving and touching experience for all attendees.

Upon his arrival in the U.S.A., he was immediately recognized for his unique talents as a cantor and composer. He has served as the cantor for various synagogues and has composed music for the High Holy Days. His compositions include "Shabbat V'Yemina," "Hear O Israel," and "Blessed Are You Hashem." His arrangements are known for their beauty and emotional depth, making them popular among cantors and musicians alike.

VAYACO GOLDSTEIN — The Arranger

Vayako Goldstein is one of the country's outstanding contemporary composers of liturgical music. He has contributed greatly to the dissemination and understanding of all forms of Jewish music. His compositions have been performed worldwide and are included in many cantorial publications. He is known for his ability to capture the "soul" of the music, thereby allowing it to express its full potential. At present, he serves as the music director of the Yeshiva University Choir.

In this recording, Mr. Goldstein has utilized his talents to create original works for the Children's Choir and Adult Choir arrangements which express the breadth of song found in the hearts of young children — a unique piece that he has composed. A note of special thanks to Camp's gifted Head Counselor Sholom Koen for his skilled assistance with the Camp Choir.
