There is a personal essence to the greatest cantorial music, a quality that marks not only the composition but also the rendition of it... The work of many of these great cantors has been preserved in recordings, and even though the sounds of their voices may have faded, the spirit and artistry of their performances live on in the recordings.

Today old cantorial records are collectors' treasures. The memory of the great cantors is kept alive through these recordings, which are a testament to the enduring art of cantorial music. The legacy of these great cantors lives on through the music they have left behind, preserved in recordings and written works, and the memories they have left us to cherish. The spirit of these great cantors continues to inspire and touch us even today, reminding us of the rich history and tradition of Jewish music.
